1 Para ver el manual completo, visite **OrionTelescopes.eu** y escriba el número de artículo del producto en la barra de búsqueda.

2 A continuación, haga clic en el enlace al manual del producto de la página de detalle del producto.

RedBeam Mini LED Light

Installing Batteries

The RedBeam Mini LED Light is powered by three LR-44 (or AG13) button cell batteries (included). Replacement batteries are commonly available in camera shops and drug stores.

To install (or replace) the batteries, unscrew the end cap that the key chain is attached to. Insert three fresh batteries, each with positive (+) side up (see **Figure 1**). Upon screwing the end cap back on the light, battery installation is complete.

Figure 1. The positive (+) side of all three batteries should face the key chain end (or back) of the light, and the negative (-) side of the batteries should face the LED end (or front) of the light.

One-Year Limited Warranty

This Orion product is warranted against defects in materials or workmanship for a period of one year from the date of purchase. This warranty is for the benefit of the original retail purchaser only. During this warranty period Orion Telescopes & Binoculars will repair or replace, at Orion's option, any warranted instrument that proves to be defective, provided it is returned postage paid. Proof of purchase (such as a copy of the original receipt) is required. This warranty is only valid in the country of purchase.

This warranty does not apply if, in Orion's judgment, the instrument has been abused, mishandled, or modified, nor does it apply to normal wear and tear. This warranty gives you specific legal rights. It is not intended to remove or restrict your other legal rights under applicable local consumer law; your state or national statutory consumer rights governing the sale of consumer goods remain fully applicable.

For further warranty information, please visit www.OrionTelescopes.com/warranty.
